Acknowledge

We would like to send a great thank to our professor, Mr Le Thanh Nhan and others student for the adorable supports during the time in project. Beside several mistakes we had made in the project, we hope to have more opportunities to widen our knowledge in web developing world. We also thank you so much for the information and the “demo” project from India APTECH to help us get more reality experience in this project. Since we have gained more experience from this project, we will not stop learning more as much as we can to be more successful in the future.

Your Sincerely,

Group 5

Synopsis

The goal of this project, Pheidip Shop is to give a sample of a ecommerce-website that has some main function of a real life website.

We will build this website with what we learned in semester II. PHP and MySQL will be used in our project. This project will give an overview of how an ecommerce-website works, the way that the data transfer between database and front end.

Pheidip Shop contains three main features:

- User can use their own account for shopping.
- A convenience shopping experience with shopping cart
- Website administrator can manage user accounts, products and orders.

All the experiences we achieve when building this project will be very helpful for us in the future works.

Review 01

Design Plan: Pheidip Shop	Document Name: Problem Definition	SWD/Form No.01/PD/Ver1.0
Effective Date: 12/10/2022	Version 1.0	Page No: 1 of 55

Problem Definition

Since the rise of large internet-based e-commerce sites, the growth of online shopping has been exponential, with a huge increase in the number of consumers choosing to buy online rather than in-store. Many traditional retailers have also followed suit, with most shops now having a dedicated e-commerce website from which consumers can make online purchases, from high street brands to charities. Even brands which no longer exist on the high street are often available online.

Pheidip Shop, an e-commerce sites for shoes, which will provide various choices for customer, with famous brands like Nike, Adidas, Timberland, Dr. Martens,... Users can easily create their account and purchase the best products from the shop.

Problem:

- Provide information of products for customer.
- Receive feedback from customer.
- Admin can quickly update information of products.
- Admin can easily manage user accounts.
- Customer can take many products in their cart and get a bill.
- Customer can check their purchase history.

Customer Requirements Specifications

User:

- Input:
 - Register information of users
 - Purchase information
 - Send feedback
- Process:
 - Check register information
 - Find products information
 - Create orders
 - Save feedback
- Output:
 - Successfully registered notification
 - Cart information
 - Successfully send feedback notification

Admin:

- Input:
 - Login information of admin account

The screenshot displays the Pheidip website's user interface. At the top, there's a dark navigation bar with the Pheidip logo, a search bar, and links for Men, Women, Brand, Collection, and Contact. The main content area features a white overlay with two tabs: 'Login' and 'Register'. The 'Register' tab is selected, revealing a registration form with fields for Username, Password, Confirm Password, Full Name, Email, Phone Number, and Address. Below the form is a 'Register' button with a user icon and a link to 'Login' for existing users. The footer contains the Pheidip logo, links for Mobile app, Community, and Company, and social media icons.

VIII. Add Brand

1. Screenshot

The screenshot shows a web application interface for 'Brand Management/Add Brand'. On the left is a dark sidebar with a user profile 'Admin' and a list of navigation items: Dash board, User Management, Order Management, Inventory Management, Product Management, Brand Management, and Feedback Management. The main content area has a title 'Brand Management/Add Brand' with navigation arrows. Below the title are four input fields: 'Brand ID', 'Name', 'Logo' (which includes a 'Choose File' button), and 'Description'. At the bottom center of the form is a green 'Add' button.
